## The Only Workbench Designed for Welders

Count on Miller to design the perfect workbench to make welding projects faster and easier.

The new Miller ArcStation is the first-ever, all-in-one workstation designed for welding and metalworking. It's versatile. It's affordable. And it comes in two convenient table sizes: Approximately 30 in x 30 in or 30 in x 60 in to meet your space requirements. You can also customize your workbench with a wide range of handy accessories. Whether for the home shop or the fab shop, ArcStation's the answer you've been looking for.

### ArcStation Makes Welding and Metal Working Easier

No more welding on the floor or makeshift benches! ArcStation is just the right height to work comfortably, with 360 degree access around the table. It's easy to clamp your work almost anywhere. And you can organize equipment, tools, and consumables into one convenient workspace.

**You'll get more done... better... faster... with less frustration.**

### This Isn't Your Ordinary Workbench

ArcStation is properly engineered for the welding process, with smart features designed for safety and convenience.

- Optional X-Pattern table top with dust tray—makes clamping and cleanup easy!
- Leveling feet—keep bench rock-steady
- Work clamp lug—keeps work clamps out of the way
- Lower shelf—provides a convenient place to store equipment, tools and raw materials
